EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Faris on 09-21-2001.

The application has been amended as follows:

Claim 7 has been canceled.

2. The following is an examiner's statement of reasons for allowance: regarding independent claims 1 and 8, the applied reference Uemura does teach converting polarized block of signals at converters 3 and 4 in figure 1. However, Uemura does not transmit all converted block of signals via a single cable 13 as recited in the claims (Uemura instead transmits only *selected* signals which are selected by processors 7a-7d to a single cable 13). For that reason, a converter 43 in figure 4 of Uemura does not convert block of signals as claimed (the converter 43 only converts selected signals which are selected by processors 7a-7d).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
